cleaning – ease the pain

Cleaning can be a thankless task – it's one that most of us avoid if we can.

Take away the pain by spreading your cleaning chores across your week instead of doing them all on one day. For example, dust on Monday, clean toilets on Tuesday, scrub showers and baths on Wednesday, vacuum on Thursday, and sweep and mop floors on Friday. It means you only have to find a few minutes each day instead of a few hours on the weekend.

BAGLESS VACUUM CLEANERS

- PRO's** - You don't have to buy disposable bags.
- Dirt is easily disposed of.
 - You can see how much dirt your vacuum is picking up.
- CON's** - Most bagless vacuum's have non washable filters that must be replaced once a year or so (approx \$30). So the trick is to buy a vacuum that has washable filters.
- Can lose suction if your filter gets clogged.
 - Can be very messy when you have to empty the chamber.

VACUUM'S THAT USE BAGS

- PRO's** - There is little to no mess when you empty them (just pull the bag out & replace).
- Filtration is generally better (can benefit people with allergies).
- CON's** - You have to continually pay for disposable bags.
- As the bag gets full you will lose suction. (change the bag before it gets full, to avoid this)

cooking with kids

Start by asking them what they'd like to make as it improves their sense of ownership and their willingness to help. Read the recipe together, get their help to measure the ingredients and encourage them to take control when the mixing begins.

Of course, it's important to put safety first when cooking with kids. For example, kids can cut if they use plastic knives, they can also shape cookies if the cutters are plastic and they can handle warm cooked cakes if the bakeware is silicone.

The more you encourage your children to participate and experience the joy of cooking, the more they'll love what they eat.

chocolate butterfly cakes

Makes 12

INGREDIENTS

125g / 4½ oz soft tub margarine
125g / 4½ oz caster sugar
150g / 5½ oz self raising white flour
2 large eggs
2 tbsp cocoa powder
25g / 1 oz plain chocolate, melted
Icing sugar, for dusting

FILLING

85g / 3 oz butter, softened
175g / 6 oz icing sugar
25g / 1 oz plain chocolate, melted

Preheat the oven to 180c. Put 12 paper baking cases in a bun tray, or 12 double-layer paper cases on a baking tray.

Put the margarine, sugar, flour, eggs and cocoa powder in a large bowl and, using an electric hand whisk, beat together until just smooth. Beat in the melted chocolate. Spoon the mixture into the paper cases, filling them three-quarters full.

Bake the cupcakes in the preheated oven for 15 minutes, or until springy to the touch. Transfer to a wire rack and leave to cool.

To make the filling, put the butter in a bowl and beat until fluffy. Sift in the icing sugar and beat together until smooth. Add the melted chocolate and beat together until well mixed.

When the cupcakes are cold, use a serrated knife to cut a circle from the top of each cake and then cut each circle in half. Spread or pipe a little of the butter cream into the centre of each cupcake and press 2 semi-circular halves into it at an angle to resemble butterfly wings. Dust with sifted icing sugar before serving.
